PC-7160

FAST BASE COAT REDUCER

PC-7160 Fast Base Coat Reducer has been formulated as a universal comparable product to many paint manufacturers Base Coat Reducers. PC-7160 Base Coat Reducer will improve overall appearance for a smoother basecoat finish and better metallic flake control. This product has been formulated to control cure and flash times as well as improve basecoat and application performance. Use this product in 60 degree temperatures.
